

Xiaomi Metal Carry-on Luggage 20"

A robust companion, an elegant travel

ID: 25735; SKU: XNA4106GL

- **100% aluminum-magnesium alloy shell, strong and lightweight.** Aerospace-grade aluminum-magnesium alloy (series 5XCT3 and 6063) makes this suitcase solid, impact resistant, and light as 4.2kg.
- **31L capacity with flexible storage partition.** A standard-sized suitcase that is allowed on the plane. Pack up your clothes, personal care stuff and other necessities, and get ready to set out.
- **Superb quality with stylish and elegant design.** 150-step delicate assembly process builds a robust and durable suitcase. Modern and minimalist outlook fits your free and young lifestyle.
- **Dual-bearing spinner wheels, smooth and ultra-silent.** Made of highly elastic TPE material, the 360° noise-minimizing and shock-absorbent wheels help the luggage to be effortlessly and silently carried across complicated ground surfaces, no matter carpet or gravel.
- **Sturdy and unhindered pull rod.** The aluminum-silicon alloy pull rod is extractable with 4 levels of adjustable heights. The ergonomically designed handle closely suits the palm. Sophisticated structure, smooth extraction and retraction, strong for use, and super feeling in hand.
- **Double TSA locks for enhanced safety.** The two TSA code locks allow your luggage to be unlocked and inspected by customs security authorities without damage.
