Investor Presentation

Deutsche Telekom finds strategic solution for the US

March 2011

Disclaimer.

This presentation contains forward-looking statements that reflect the current views of Deutsche Telekom management with respect to future events. These forwardlooking statements include statements with regard to the expected development of revenue, earnings, profits from operations, depreciation and amortization, cash flows and personnel-related measures. You should consider them with caution. Such statements are subject to risks and uncertainties, most of which are difficult to predict and are generally beyond Deutsche Telekom's control. Among the factors that might influence our ability to achieve our objectives are the progress of our workforce reduction initiative and other cost-saving measures, and the impact of other significant strategic, labour or business initiatives, including acquisitions, dispositions and business combinations, and our network upgrade and expansion initiatives. In addition, stronger than expected competition, technological change, legal proceedings and regulatory developments, among other factors, may have a material adverse effect on our costs and revenue development. Further, the economic downturn in our markets, and changes in interest and currency exchange rates, may also have an impact on our business development and the availability of financing on favourable conditions. Changes to our expectations concerning future cash flows may lead to impairment write downs of assets carried at historical cost, which may materially affect our results at the group and operating segment levels. If these or other risks and uncertainties materialize, or if the assumptions underlying any of these statements prove incorrect, our actual performance may materially differ from the performance expressed or implied by forward-looking statements. We can offer no assurance that our estimates or expectations will be achieved. Without prejudice to existing obligations under capital market law, we do not assume any obligation to update forward-looking statements to take new information or future events

In addition to figures prepared in accordance with IFRS, Deutsche Telekom also presents non-GAAP financial performance measures, including, among others, EBITDA, EBITDA margin, adjusted EBITDA margin, adjusted EBITDA margin, adjusted EBIT, adjusted net income, free cash flow, gross debt and net debt. These non-GAAP measures should be considered in addition to, but not as a substitute for, the information prepared in accordance with IFRS. Non-GAAP financial performance measures are not subject to IFRS or any other generally accepted accounting principles. Other companies may define these terms in different ways.

Transaction highlights.

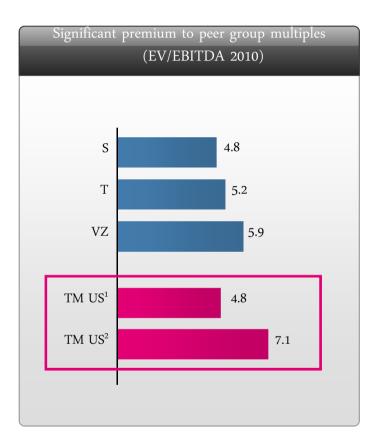

Compelling Value	 US\$39 billion (\$25 billion in cash / \$14 billion in stock) 7.1x 2010 Adjusted EBITDA Approx. 50% greater than sum-of-the-parts valuation
Immediate Shareholder Benefits after Closing	 Share buyback of €5 billion planned Remuneration policy remains unchanged at €3.4 billion p.a. through 2012 EPS and FCF per share accretive from 2012
De-Risk Deutsche Telekom	 Repatriate €18.1 billion in cash Debt reduction of €13 billion planned - leverage ratio improves to 1.9x Eliminates U.S. investment overhang Significant break-up fee agreed
Continued Participation in U.S. Wireless	 Approx. 8% ownership in AT&T – 2010 dividend of almost US\$ 10 billion Upside from significant synergies (US\$ 3 billion annual run-rate) Participation in strong wireless broadband growth (15% CAGRe 2010-2012)¹ T-Mobile US operating independently until closing – attractive retention scheme

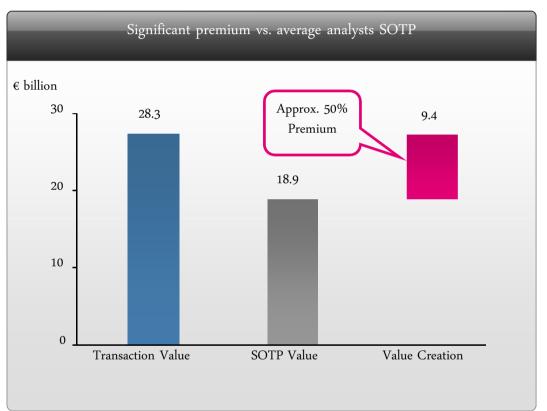

Transaction summary.

Cash & Stock Acqui	sition	Stock subject to 7.5% collar between signing and closing
\$25 billion Cash		Approvals required from DOJ and FCC
		Expected to close in H1 2012
\$14 billion AT&T	「Stock	One seat on AT&T Board
\$39 billion Total	Value	12 month lock-up on shares
		No shareholder votes required
		Minimal taxes from the deal

Compelling value benefits shareholders.

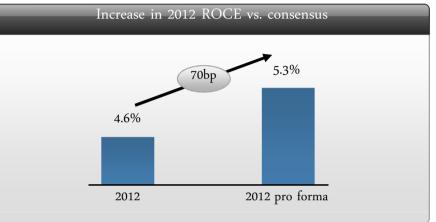

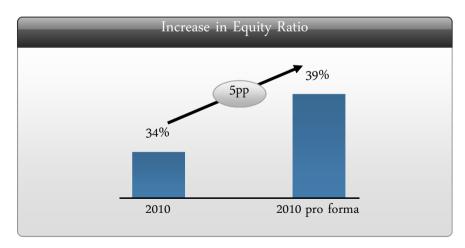

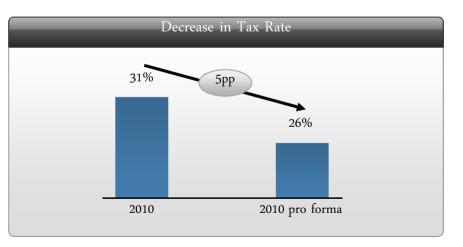

Immediate shareholder benefits: key ratios improved.

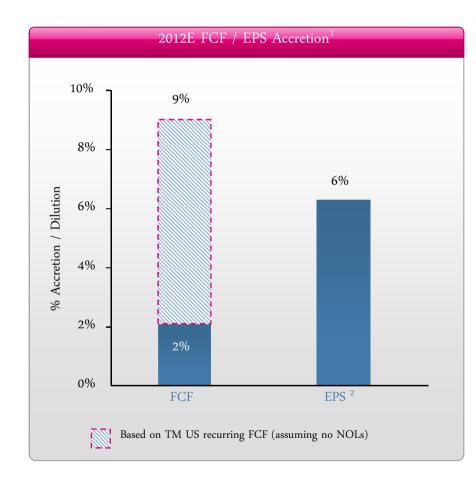

6

Immediate shareholder benefits: accretive to FCF and EPS consensus estimates.

- Free cash flow per share benefits
 - Reduced interest expense
 - Planned reduction in shares outstanding
 - AT&T dividend
- EPS benefits
 - Reduced corporate tax rate
 - Reduced interest expense
 - Planned reduction in shares outstanding
 - AT&T dividend

Immediate shareholder benefits: €5 billion share buyback planned.

No impact on shareholder remuneration policy through 2012

• €3.4 billion annual remuneration to shareholders through 2012 maintained¹

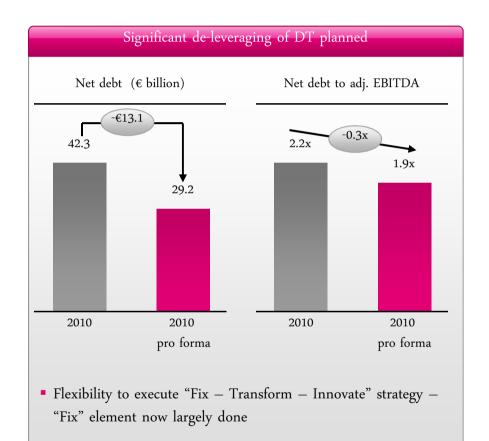

■ €5.0 billion incremental buyback planned¹

No impact on guidance for 2011

- Adj. EBITDA of around €19.1 billion²
- Stable to slightly growing free cash flow³ from €6.5 billion in 2010

Deal de-risks Deutsche Telekom and creates strategic headroom.

No change to M&A policy

De-risking transaction elements

- Repatriate €18.1 billion of cash
- Remove investment overhang in the US
- Natural hedging from US\$15 billion denominated debt
 - Further hedging to be considered
- Collar protection for share consideration in place between signing and closing

Compelling benefits for US stakeholders.

Dramatically improves customer experience via improved services and network quality including access to low band spectrum

Facilitates robust voice and data services to rural America

Expanding LTE to 95% of the population

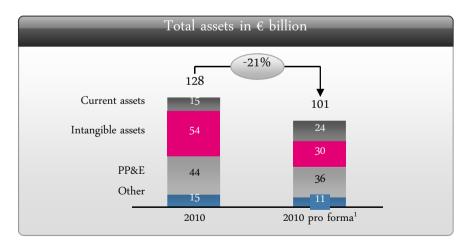

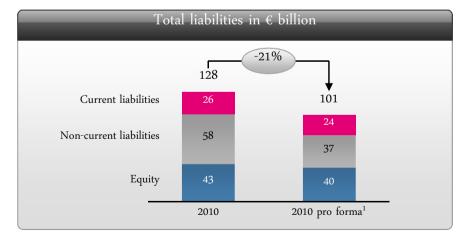

Creates greater capacity to meet growing demands for mobile bandwidth

Deutsche Telekom key ratios on a pro forma 2010 basis.

	2010 reported	Deconsolidation	Interest savings	Dividend received	2010 pro forma
revenues	62.4	(16.0)			46.4
TDA	19.5	(4.2)			15.3
it from operations	5.5	(2.1)			3.4
it before income taxes	2.7	(2.1)	0.7	0.6	1.8
income	1.7	(1.4)	0.5	0.5	1.3

Key message: Deutsche Telekom's management continues to execute on "fix – transform – innovate".
