

# SECURITY AS AN ESSENTIAL PART OF THE BEST TELCO SERVICES

Ivo Pastucha, Regional Head of Technology Security

# SECURITY: THREAT OR OPPORTUNITY?

## HOW CAN WE TRANSFORM A THREAT INTO SUCCESS?

The **amount of attacks**, vulnerabilities and risks increases with the increased **complexity and utilization** of the environment .

**Internet** as “One Platform for All” brought **risks** to the **very last corner of the world**.

Security will grow **from a niche issue** to a market where **billions of euros** are available for those who are ready.

This **trend** is already visible as the continuously growing **sum of investments** into the security area and related **innovations** .

# DTAG'S SECURITY FOOTPRINT

## DO WE TAKE IT SERIOUSLY?

DTAG applies **strict security governance** rules to new products and services

NatCos, including TMCZ, are **tightly integrated** and benefit leverage from scale

DTAG **CERT**, T-Systems Cyber Security Unit, **Product Development**, Strategy

**Close and active cooperation** within DT in the security area
